ABOUT US

When adults are educated, informed and active participants in the community, the children are the beneficiaries.

The Adult Education Center in Hartford (AECH) strives to provide Hartford's adult learners with the education, workforce knowledge and civic skills necessary to impact their lives, the lives of their children, and the community at large.

AECH works to create opportunities for adult learners to set and achieve their academic and career goals through small, differentiated instructional classes that meet the individual needs of diverse learners. Through a contextualized learning approach, students develop the skills and knowledge necessary for English language acquisition, GED preparation, citizenship, college or a career.
